PERSONAL PROFILE

I am a student of software engineering .I am currently learning web development. i have knowledge of HTML , CSS and little bit of JAVASCRIPT and want to be a frontend and backend developer.

WORK EXPERIENCE

photoshop

- once i had done photoshop order and earn about 72\$ the i switched to web development and made front end projects.

WEB DEVELOPMENT

CURRENTLY LEARNING

- I am currently learning web designing and want to be a frontend and backend developer.

EDUCATIONAL HISTORY

School

Govt. Comprehensive high school | 2015 to 2017 |

- I had done my high school Education by gaining A+ grade and i choose science as a subject at that time. During my school times i saw my future as a computer field student.

college

Superior group of colleges | 2017 to 2019 |

- I entered in college life when i was about 17 years of age and at that time i choose Fsc. pre engineering because of its vast field. I did my fsc by gaining 872 marks and was ready to enter in university life.

University

University of Sargodha |currently studying|

- i have done 3 semesters of software engineering and my CGPA is 3.19.
